

LEADERSHIP IN PROJECT MANAGEMENT CERTIFICATE PROGRAM

This four (4) seminar certificate program focuses on the key leadership skills that project managers/leaders need for effective management of their organization's programs/projects.

In addition to the prerequisite 3 Day seminar titled "A Practical Approach to Planning & Controlling Projects", seminar attendees must complete the following three (3) seminars to attain a Leadership in Project Management Certificate:

- Management by Projects: A Portfolio Approach
- Leading and Building High Performance Project Teams
- Effective Negotiations: Influencing Without Authority

Seminar attendees are introduced to and further challenged to apply, via exercises/scenarios, proven tools/techniques that will serve to improve their ability to manage multiple projects and priorities, develop and lead cross-functional teams, and influence others to achieve organizational as well as personal beneficial outcomes.
